jerson.conmigo@gmail.com | 09274844711 | <https://www.linkedin.com/in/jerson-conmigo/> | <https://jersrej.github.io/>

PROFESSIONAL SUMMARY

Senior Front-End Engineer specializing in modern front-end development using ReactJS, TypeScript, and scalable UI architectures. Proven track record building and modernizing SaaS platforms, owning front-end initiatives, and collaborating closely with product, design, and backend teams. Front-end focused, with hands-on experience supporting backend APIs and integrations.

CORE TECHNICAL SKILLS

- ◆ Front-End (Core) – ReactJS, TypeScript, JavaScript, TailwindCSS, shadcn/ui, CSS/SCSS, Responsive & Accessible UI, Component architecture
- ◆ State / Data / APIs – REST APIs, GraphQL (Client), Redux
- ◆ Backend & Platforms (Supporting) – NestJS (hands-on), Node.JS (supporting), TypeORM (exposure)
- ◆ Cloud & DevOps – AWS (S3 Bucket), Azure Pipelines, CI/CD (GitHub Actions, Bitbucket Pipelines)
- ◆ Tooling & Practices – Git (GitHub, GitLab, Bitbucket), Vite, JIRA, Scrum / Kanban, Code Reviews

PROFESSIONAL EXPERIENCE

- ◆ Putti (via Deployed Philippines Inc.)
Full Stack Developer | Dec 2024 – Aug 2025
 - XPO Group – Event Management Platform
 - Contributed primarily to the front-end redevelopment of XPO Group's internal systems into XPO showtime, a modern event management platform, with supporting backend work.
 - Provided supporting backend contributions using NestJS, assisting in API implementation and service-layer logic
 - Developed responsive, accessible front-end features using ReactJS, TypeScript, and TailwindCSS
 - Helped replace a legacy PHP system with a modern Node.JS/NestJS architecture.
 - Established reusable front-end components to improve development velocity and consistency
 - OnShout – Digital Gifting Platform
 - Primarily developed front-end features supporting wish-lists, group contributions, and digital gift-card redemption, with supporting backend contributions.
 - Worked within a monorepo setup while focusing on front-end architecture and UI implementation.
 - Conducted front-end code reviews, reinforcing best practices and maintainable TypeScript patterns.
- ◆ Applicable Limited (via Deployed Philippines Inc.)
Front End Developer | Feb 25, 2021 – Dec 2024
Responsibilities:
 - Followed client specs and technical guidelines from PLDs
 - Allocated time effectively to meet deadlines and priorities
 - Submitted weekly reports and worked closely with team leads
 - Maintained adaptability and a positive team mindset
 - Beyond Strategy – SaaS Business Platform
 - Worked as a core front-end contributor on a large-scale SaaS product with a React + C#.NET architecture.
 - Refactored and optimized UI components to improve performance and long-term maintainability.
 - Led the migration from Create React App to Vite, significantly improving build speed and developer experience.
 - Collaborated closely with backend architects and Azure hosting teams during releases.
 - Other Key Projects
 - Auto Mossa – Built reusable UI components and integrated GraphQL APIs for an international automotive ordering system.
 - Gleeson & Cox – Maintained and enhanced a mission-critical Transport Management System using Ember.js.

- Twiikflow – Led front-end redevelopment from a legacy PHP system to React, improving usability and deployment stability.

◆ No Standing Digital
Melbourne, Australia
